

## **BIOMASS FUTURES:**

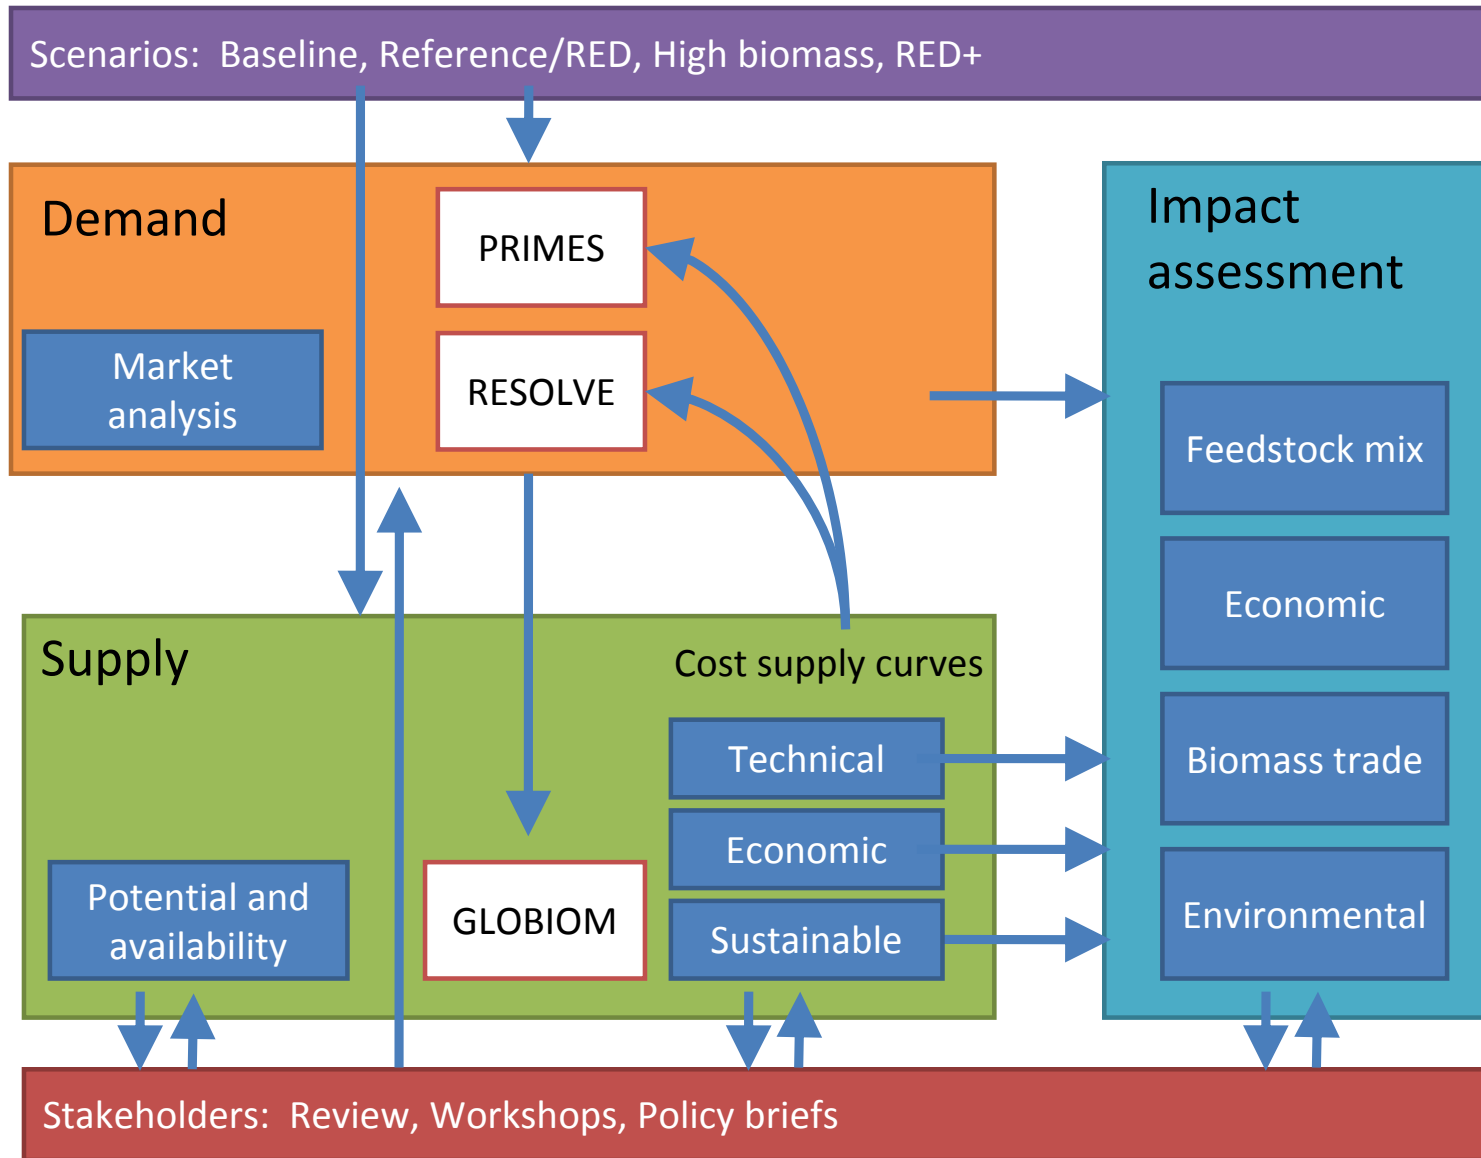

**Biomass role in achieving the Climate Change & Renewables EU policy targets. Demand and Supply dynamics under the perspective of stakeholders**

Uwe Fritsche, Oeko-Institut  
Calliope Panoutsou, Imperial College

presented at the Biomass Futures Workshop  
“Sustainable biomass options to meet the RED targets for 2020”  
April 12, 2011 in Brussels

## **PARTNERS**

- **Imperial College London (CEP/IC, UK)**
- **International Systems of Applied Systems Analysis (IIASA, AT)**
- **Centre for Renewable Energy Sources (CRES, GR)**
- **Oeko-Institut, Institute for Applied Ecology (Oeko, DE)**
- **Energy Research Centre of the Netherlands (ECN, NL)**
- **Alterra b.v. (NL)**
- **Institute for European Environmental Policy (IEEP, UK)**
- **Institute of Communication and Computer Systems/  
E3M Lab (ICCS, GR)**

# Working Paper

## Sustainable Bioenergy: Key Criteria and Indicators

draft working paper of the

**BIOMASS FUTURES**

project funded by

Darmstadt, April 2011
