

BIOMASS FUTURES project (www.biomassfutures.eu)

‘ Demand for biomass: How likely is to be met?’

30th June 2010

Brussels

Albert Hall Complex, Chaussée de Wavre 649-651, B-1040,

Aim : To map current & future demand and discuss how the different market segments shape their demand prospects in the future and where biomass is expected to play a role.

9.00- 9.30 Tea/ Coffee

09.30 – 10.00 [BIOMASS FUTURES: Current state of biomass in the heat, electricity, CHP and transport markets](#)

Calliope Panoutsou, Imperial College London

10.00 -10.20 Biomass demand & Supply dynamics in EU27

Pär Arvidsson, McKinsey & Company

10.20 – 10.40 [Policy driven demand for biomass & future scenarios/ GREEN-X model](#)

Gustav Resch, TUV

10.40 – 11.00 [Biomass CHP in EU](#)

Thomas Esdaile-Bouquet, COGEN Europe

11.00 – 11.20 Tea/ Coffee Break

11.20 – 11.40 [Demand from the biofuels industry.](#)

Birger Kerkow, Biofuels Platform

11.40 – 12.00 [Demand from the chemical industry](#)

Eleftheria Athanassiadou, Chimar Hellas

12.00- 12.20 [Demand from the biomaterials industry](#)

Antoine Peeters, Europabio

12.20 – 13.00 Discussion- Key factors affecting demand

13.00 – 14.00 Lunch
